

# SANITATION

Do not bury or burn poo.

## Twin Bucket Emergency Toilets

### Need:

- 2 five-gallon buckets
- 2 lids for the buckets
- Toilet paper
- Hand sanitizer
- For Poo bucket:
  - ◊ Plastic bags
  - ◊ Toilet seat or rim padding
  - ◊ 3 gallons filler (shredded paper, sawdust, cat litter)

### Directions:

- Mark one bucket “pee” and one bucket “poo”.
- Use buckets separately if possible (try not to mix pee and poo.)
- Line poo bucket with plastic bag x 2
- Add some filler material to the bottom of the poo bucket.
- After using the poo bucket, sprinkle as much filler as needed to completely cover the surface of the poo. This reduces odors and keeps flies away.
- Do not overfill the plastic bags,
- Put all used toilet paper into the poo bucket.
- Urine can be spread on grass or gardens.
- See Waste Disposal section for poo removal.

## WASTE DISPOSAL

- Secure plastic bags with gooseneck tie.
- Place tied bags in areas away from people and secured from rodents.
- Disinfect hands and areas of accidental waste contact.

## Disinfectant and Cleaning

- Clean contaminated surfaces with bleach solution.
- Always clean hands after handling waste.
